

Dr. Nita Pai BDS (Adel), MDS (Adel)
Paediatric Dentist

Welcome to Dr Pai's specialist paediatric dental practice.

We look forward to meeting you and your child at the consultation appointment.

Our practice is located at suite 503/35 Spring Street, Bondi Junction.

Parking longer than 30 minutes is available at Eastgate shopping centre.

We recommend one or both parents attend the initial consultation appointment. This visit gives Dr Pai an opportunity to meet you with your child. We are here to listen to your questions and address any concerns you may have.

Should you need to reschedule the appointment we would appreciate at least 48 hrs notice as the time slot that has been reserved for your child can be offered to another patient.

For young children and anxious children we recommend appointments earlier in the day.

If you have been referred by your dentist it would be helpful if you could please bring the referral letter and any radiographs taken.

A consultant fee of \$160 is payable on the day of presentation and additional charges are applicable if radiographs are taken (\$65/X-ray).

We thank you for choosing our practice and would like to assure you that every effort will be made to ensure that your child will be looked after and provided with the best possible care.

We are extremely proud of our staff which is comprised of caring and dedicated professionals. They ensure that the patients dental and administrative needs are met both efficiently and smoothly as possible.

Please do not hesitate to contact us on 02 9386 9600 or email us on drnitapai@kidsdentalsydney.com if you have any further queries.
